TECH CENTER 1600/2900

Director of the United States Patent and Trademark Office
Washington, D.C. 20231

Sir:

This is in response to the United States Patent and Trademark Office
Action mailed December 2, 2002 which response is being made on or before
March 2, 2003. Please amend the above-identified patent application as follows:

In the Drawings:

Corrected Figs. 1A – 8G are being re-submitted to the draftsman to overcome
the objections of the Draftsman.

In the Claims:

Amend Claim 71 to read as follows:

71 (Amended). A biological preparation [for use in vivo comprising; ex vivo,
(cells in suspension and a purified mammalian heparanase enzyme) being externally
adhered to said cells, thereby increasing the natural amount of heparanase externally
adhered to said cells, so as to enhance extravasation, implantation, transplantation,
invasion and/or migration of said cells in vivo, with the provision that said cells do
not comprise a human life.
